The meeting was called to order at 7:00 pm

The first time on the agenda was to look over the Final Lot addition for the Bordner property. We had approved these plans at our prior meeting in March, but Elly Miller, the Township Secretary sent them to our meeting, so Justan Sr. and Bonnie Heisey signed the plans to give back to her for the supervisors to approve.

Bonnie Heisey than handed out packs containing information on Data Centers from townships in Pennsylvania who have submitted Ordinances for Data Centers. I told the Commission members to look over the packet of information and that we would meet the following Tuesday and decide which of the townships had the best ideas and we would discuss the information at our next meeting.

Meeting was adjourned at 7:45 pm.

Sincerely submitted by

Bonnie Heisey
Planning Commission Secretary
